Hi Myra.

Sorry for the utter confusion on my part. Thank you for helping to keep me straight. We are decreasing the sample numbers significantly for water (as the QA/QC is for sampling mission not per media) and increasing soil numbers. After talking to other SAM's and looking at the organic statement of work I believe that we will not need lab QA/QC for the volatile and semi-volatile fractions. As required we will be sending triple volume for pesticides and metals. Hopefully the overall cost will go down. In addition I would like to suggest a conference call with EPA, Houston lab and Weston for Wednesday August 1, 2012 at 10:00 to clarify any outstanding CLP and lessons learned from recent documentation issues. I will send a separate email invitation. See numbers below-Let me know if you need anything else from me, big thanks.

take care of you

:) brenda

CLP

17 water samples + 2 field dup + 4 trip blanks + 4 field blanks for
VOA/SVOA/Pest./ARO,

18 sediments for VOA/SVOA/Pest./ARO

80 soils for VOA/SVOA/Pest./ARO

80 soils + 2 field blanks for TM + Hg

Houston Lab

17 waste samples for VOA/SVOA/Pest./ARO/TM/Hg

19 water samples + 2 field blanks for TM + Hg

18 sediments for TM + Hg

Hello Brenda. As per our conversation this morning, here are the new number of samples. Please review and revise if necessary.

CLP

15 water samples + 2 field dup + 4 trip blanks + 4 field blanks for
VOA/SVOA/Pest./ARO,

17 sediments for VOA/SVOA/Pest./ARO

66 soils for VOA/SVOA/Pest./ARO

66 soils + 2 field blanks for TM + Hg

Houston Lab

17 waste samples for VOA/SVOA/Pest./ARO/TM/Hg

17 water samples + 2 field blanks for TM + Hg

17 sediments for TM + Hg

If you have questions, please call or send me an e-mail.

Take care.
